

Vitor Bernstorff Clemes

Fullstack WEB Developer

Professional Goal

Actively contribute to the development and improvement of challenging projects, applying my training as a Computer Scientist.

I seek to acquire experience and practical knowledge, working in a stimulating and collaborative environment, where I can apply my technical and creative skills to create efficient and scalable solutions.

I intend to improve my career as a developer under the stimulus of a company committed to innovation, in addition to improving my leadership and teamwork skills.
